

ST JOSEPH'S HOME EXPERIMENT CHALLENGE

Calling all budding young scientists!

To celebrate British Science Week, it would be amazing to see as many pupils as possible carrying out their own Science experiments at home.

All those who enter the challenge will have a chance to win a science themed book full of lots of exciting ideas to try at home!

There are many experiment ideas that can be done using everyday household items, the following website links include many suggestions that you may want to try out with your child.

<https://primarylibrary.crestawards.org/all-superstar-challenges/61747644>

We would love to include the experiment photographs on our Science display in school, as well as on our twitter feed. ****Please let us know on the entry if you do not want your child's image to appear on either of these.***

All entries to be emailed or handed in to Mrs Pay or Mr Belchamber by **Tuesday 24th March**. (K.pay@stjosephsbracknell.co.uk)

The entries will all be celebrated in a special school assembly on Friday 28th March. The prize winners will be chosen at random from each key stage during the assembly.
